

Rules and Regulations Degree Program 2018-2019
BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

These rules & regulations are valid for BSc in Business Administration program, for the academic year 2018-2019, starting on August 22, 2018.

**RULES AND REGULATIONS DEGREE PROGRAM 2018-2019
BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION (full-time)**

Valid for the Academic Year 2018-2019

Preamble

These Rules and Regulations have been adopted for the Bachelor of Science in Business Administration program (hereafter BScBA) (CROHO 50897) by the University Board of Universiteit Nyenrode B.V. Pleading ignorance of the Rules and Regulations or the implications thereof will not be accepted as mitigating circumstances in the case of an appeal to any authorized person(s) or committee(s).

Students are always responsible for their actions and for the complete and correct submittance of assignments and exams. Students also remain responsible for all materials that they upload to the Program Portal/Learning Management System and can be accessed by fellow students, faculty and Nyenrode staff.

Section 1 – GENERAL PROVISIONS

Article 1 – Scope of these Rules and Regulations

These Rules and Regulations are applicable to the teaching and the assessment within the BScBA program. They are an integral part of and form an addition to the General Statute of Universiteit Nyenrode B.V. (hereafter called: Nyenrode Business Universiteit). These Rules and Regulations are renewed every Academic Year and they become valid on the first day of the Academic Year concerned. These Rules and Regulations replace all earlier versions of the Rules and Regulations of the BScBA program. When a new version of these Rules and Regulations is established for a future Academic Year the current Rules and Regulations become invalid.

Within the framework of the General Statute and the General Terms and Conditions of Education at Nyenrode (*Algemene Onderwijsvoorwaarden*) and the Nyenrode Code of Conduct for students, these regulations apply to the teaching and assessment within the program. Every student is expected to be familiar with the latest version of the Rules and Regulations. Students are responsible for familiarizing themselves with the Rules and Regulations, which is made available on the Program Portal/Learning Management System.

If a student wishes to be exempted from a particular rule or regulation in these Rules and Regulations, then he/she must seek permission from Program Management and/or the Exam Committee, depending on the nature of the request and the rules it concerns. If a student files a request to the Exam Committee, the name of the program and the cohort in which they participate must be included. During student enrollment all formal correspondence to and from Nyenrode is and needs to be conducted via Nyenrode email accounts.

Where applicable, appendix A to these Rules and Regulations stipulates the transitory arrangement for rules and regulations that underwent a substantial change when compared with Rules and Regulations from previous Academic Years.

Article 2 – Definitions

Appeal Committee	A committee handling complaints against decisions by the Exam Committee, the Program Director or the University Board. It is chaired by an external (legal) officer. Decisions by the Appeal Committee are final and binding.
Assessment	Description used in general sense for the assessment of the knowledge and skills obtained in relation to a specific course.
Assignment (individual and/ or group)	A practical exercise as mentioned in Article 7.13 of the WHW in one of the following forms: (1) Writing of papers, reviews or a thesis/final project; (2) Working on a research assignment; and (3) Participating in field work or excursions or in other educational activities aimed at obtaining the skills and knowledge as defined for the program and its various courses.
BScBA program	The BScBA program offered under the responsibility of Universiteit Nyenrode B.V.
Center	Organizational unit responsible for the development of courses , their delivery and their assessment.
Course	An educational part of the program.
Course outline	A detailed description of the content, the learning objectives and assessment methods of a course.
Exam	A written or oral assessment in which the candidate provides insight in his/her knowledge and understanding. This can be done by answering questions but also by fulfilling an assignment
Exam Committee	A quality assurance committee as meant in Article 7.12 of the WHW. The Exam Committee is responsible for ensuring and maintaining the quality of assessment within the program. According to the WHW the Exam Committee decides in an objective and professional manner if a student has fulfilled all learning objectives defined for the program and therefore has obtained the knowledge, skills and insights that are necessary to obtain a degree. The members of the Exam Committee are appointed by the University Board of Universiteit Nyenrode B.V. In this document Exam Committee is used for the Exam Committee.
Examiner	A person, appointed by the Exam Committee, who designs and grades assignments and exams
General Statute	The General Statute of Universiteit Nyenrode B.V.to be found at: https://www.nyenrode.nl/docs/default-source/pdfs/over-nyenrode/terms-of-application/general-statute/general-general-statute-universiteit-nyenrode-bv-2017-2018.pdf
General Terms and Conditions of Education	General Terms and Conditions of Education at Nyenrode to be found at: https://www.nyenrode.nl/docs/default-source/pdfs/over-nyenrode/voorwaarden-reglementen/studenten/general-terms-and-conditions-of-education-at-nyenrode-2017-2018.pdf?sfvrsn=e96ac014_2
Illness protocol	Extenuating circumstances, Illness and pre-existing conditions protocol
Mentor	Person responsible for guiding and advising the student on study related issues during their program.
Nuffic	The Netherlands Organization for International Cooperation in Higher Education.
Proctor	A supervisor during an examination (<i>surveillant</i>).
Program Director	The person responsible for staff, budget and academic quality of the program and for contacts with all program stakeholders.
Program Management	The staff of Universiteit Nyenrode B.V. responsible for the program.
Program Portal/ Learning Management System	Website accessible only to persons involved with the program (students, faculty, program management)
Re-do course	A course which a student has to do again after he or she failed for the exams related for the first course.
Second Examiner	A second examiner, who checks a written assessment or participates in an oral exam
Second Reader	A faculty member who independently assesses a Thesis or a Final Project.
Student	The person who is registered at Universiteit Nyenrode B.V. in order to participate in the program, including its assessment.
Study Guide	Description of the procedures and content of the program.
Term	Quart of a study year
Terms of Application	Terms setting the rules for the relationship between Universiteit Nyenrode B.V., also known as “Nyenrode Business Universiteit” and the student. To be found at: https://www.nyenrode.nl/over-nyenrode/voorwaarden-en-reglementen/terms-of-application-2017-2018
WHW	The <i>Wet op het hoger onderwijs en wetenschappelijk onderzoek</i> (the Dutch Higher Education and Research Act).

Article 3 – Purpose of the program

The aim of the BScBA program is to obtain sufficient knowledge, skills and insight into the subject matter being studied, enabling students to obtain a Bachelor of Science degree in Business Administration, as defined in Article 7.19a of the Dutch Higher Education and Research Act (WHW).

In order to qualify for the Bachelor of Science degree, a student needs to obtain a passing grade for each course during the Program. Also the sports program is mandatory. The sports program is connected to the course Personal Leadership and Development Journey.

The BScBA program is offered in a three-year track and starts once a year and is taught in English.

Article 4 – Full time

The BScBA program is full time.

Article 5 – Assessments

1. The program allows students to obtain the degree of Bachelor of Science.
2. The degree will be obtained when all courses have been passed successfully.
3. Teaching and assessment will be conducted in English.
4. The Program Director and/or Exam Committee may define additional requirements for students to participate in courses and/or assessments, these will be published on the program portal.
5. Extenuating circumstances are unforeseen, unavoidable events that significantly and directly disrupt the performance of a student in an assessment. As a student you are expected to plan your work so you can meet assessment deadlines at the same time as other obligations you may have both inside and outside the university. The extenuating circumstances process should only be used if you experience qualifying circumstances. Extenuating circumstances are described in more detail in the illness protocol.
6. All course work, assignments etc. must be submitted according to the instructions of the Examiner. Late submission of, or the failure to submit course work and/or assignments will be penalized at the discretion of the examiner and Program Management after consultation with the Exam Committee. The course outline should clearly state the manner of submission as well as the consequences of late submission or failing to submit.

Section 2 – THE PROGRAM

Article 6 – Curriculum

1. The curriculum of the BScBA program consists of the following courses, study hours, study load in European Credits according to the European Credits Transfer System (ECTS).

<i>BScBA Cohort 2018</i>	Study hours	ECTS rounded off
Course		
<i>Year 1, Term 1</i>		
Principles of Business Administration	140	5
Mathematics for Business	112	4
Fundamentals of Marketing	84	3
Academic Writing & Referencing	56	2
Personal Leadership & Development Journey	28	1
<i>Year 1, Term 2</i>		
Principles of Economics	112	1
The Evolution of Strategy	112	4
Trends and Trend watching	84	3
Business Game and Start ups	84	3
Personal Leadership & Development Journey	28	1
<i>Year 1, Term 3</i>		
Fundamentals of Finance & Accounting	140	5
Organizational Behavior	84	3
Rhetoric & Debating	84	3
Research Methodology	84	3
Personal Leadership & Development Journey	28	1
<i>Year 1, Term 4</i>		
Information systems & Emerging Technologies	112	4
Statistics for Business	112	4
Entrepreneurship & Sustainability	84	3
Fundraising & Project Management	84	3
Personal Leadership & Development Journey	28	1

<i>Year 2, Term 5</i>		
Doing Business Research I	112	4
Managerial Accounting	84	3
Critical Thinking & Philosophy	84	3
Business Law	84	3
Company Project & PLDJ	56	2
<i>Year 2, Term 6</i>		
International Business	112	4
Digital Marketing	84	3
Future of Work	84	3
Innovative thinking	84	3
Company Project & PLDJ	56	2
<i>Year 2, Term 7</i>		
Strategic Management	112	4
Operations Management	112	4
Managerial Finance	112	4
Company Project & PLDJ (deep dive)	84	3
<i>Year 2, Term 8</i>		
Sustainable Organizational Development	112	4
Cross Cultural Thinking	112	4
Business Ethics	84	3
Doing Business Research II	56	2
Company Project & PLDJ	56	2

<i>Year 3, Term 9 (exchange)</i>		
International Relations and Diplomacy	112	4
Stakeholder Management	112	4
Learning through Business Games	112	4
Negotiation Strategies	84	3
<i>Year 3, Term 10 (Exchange)</i>		
Business & Taxes	112	4
Consumer Behavior	112	4
Decision making	112	4
Sports Leadership	84	3
Trends and Trend watching	84	3
<i>Year 3, Term 11</i>		
Advanced Accounting & Finance	112	4
Sustainability and Strategic Innovation	112	4
Methods of Data Analysis	112	4
Thesis Preparation & Academic Writing	56	2
Personal Leadership & Development Journey	28	1
<i>Year 3, Term 12</i>		
Thesis	280	10
Strategic Leadership	112	4
Personal Leadership & Development Journey	28	1
Total BScBA		240

28 study hours is equivalent to 1 ECTS

2. Changes to the curriculum

For cohort 2017-2020, the curriculum below applies.

BScBA Cohort 2017	Study hours	ECTS rounded off
Course		
<i>Year 2, Term 5</i>		
Strategic Management	112	4
Managerial Accounting	84	3
Entrepreneurship & Sustainability	84	3
Business Law	84	3
Company Project & PLDJ	56	2
<i>Year 2, Term 6</i>		
Doing Business Research I	112	4
Digital Marketing	84	3
Future of Work	84	3
Statistics for Business	84	3
Company Project & PLDJ	56	2
<i>Year 2, Term 7</i>		
Critical Thinking & Philosophy	112	4
Operations Management	112	4
Managerial Finance	112	4
Company Project & PLDJ (deep dive)	84	3
<i>Year 2, Term 8</i>		
Sustainability and Strategic Innovation	112	4
Cross Cultural Thinking	112	4
Business Ethics	84	3
Doing Business Research II	56	2
Company Project & PLDJ	56	2
<i>Year 3, Term 9 (exchange)</i>		
International Relations and Diplomacy	112	4
Stakeholder Management	112	4
Learning through Business Games	112	4
Negotiation Strategies	84	3
<i>Year 3, Term 10 (Exchange)</i>		
Business & Taxes	112	4
Consumer Behavior	112	4
Decision making	112	4
Sports Leadership	84	3
<i>Year 3, Term 11</i>		
Advanced Accounting & Finance	112	4
Sustainability and Strategic Innovation	112	4
Methods of Data Analysis	112	4
Thesis Preparation & Academic Writing	56	2
Personal Leadership & Development Journey	28	1
<i>Year 3, Term 12</i>		
Thesis	280	10
Strategic Leadership	112	4
Personal Leadership & Development Journey	28	1
Total		180

For cohort 2016-2019, the curriculum below applies.

BScBA Cohort 2016	Study hours	ECTS rounded off
Course		
<i>Year 3, Term 9 (exchange)</i>		
International Relations and Diplomacy	112	4
Stakeholder Management	112	4
Learning through Business Games	112	4
Negotiation Strategies	84	3
<i>Year 3, Term 10 (Exchange)</i>		
Business & Taxes	112	4
Sustainability and Strategic Innovation	112	4
Consumer Behaviour	112	4
Sports Leadership	84	3
<i>Year 3, Term 11</i>		
Methods of Data Analysis	112	4
Thesis Preparation & Academic Writing	56	2
Sustainable Organizational Development	112	4
Economics & Politics	112	4
Personal Leadership & Development Journey	28	1
<i>Year 3, Term 12</i>		
Thesis	280	10
Strategic Leadership	112	4
Personal Leadership & Development Journey	28	1
Total		60

Program Management reserves the right to make any changes to the curriculum after it has been officially released. Any changes will be posted on Canvas in a timely fashion.

Section 3 – GRADING

Article 7 – Grading and Exemptions

- 7.1** Nyenrode Business Universiteit employs a “0-10” grading scale in which “10” is the maximum score.
- 7.2** The grades for completed courses are expressed in whole numbers, except for the Thesis. Any rounding required is calculated as follows:
Up to a .5 is rounded down to the next whole number (example: 5.49 is rounded down to a 5).
From a .5 is rounded up to the next whole number (example 5.50 is rounded up to a 6).
(For more details on Thesis grading: refer to the Thesis Guidelines.)
- 7.3** In the BScBA Program, the threshold grade for final exam and final course grade is “5.50” before rounding. If a student receives a final exam or final course grade below this threshold then the course examination requirements have not been met.

The whole course threshold grade is 5.50 before rounding. A final course grade under the minimum of 5,5 before rounding, means that the course examination requirements have not been met. It is also required that for every part of the assessment, in which a learning objective of the course is assessed for the final time, the grade has to be 5.50 before rounding.

The exception to the above rule applies to the grading of the BScBA Thesis, for which the threshold of the total grade is “6.00” before rounding. The Rules and Regulations pertaining to the grading of the BScBA Theses are outlined in the BScBA Thesis Guidelines reader issued by BScBA Program Management. BScBA Thesis Guidelines should be regarded as an addendum to the BScBA Rules and Regulations and are thus legally binding.

7.4

For international transcript purposes whole course grades before rounding awarded at Nyenrode Business Universiteit are converted to letter grades in accordance with the following table:

NL	VS	GPA
10	A+	4.0
9.5	A+	4.0
9	A+	4.0
8.5	A+	4.0
8	A	4.0
7.5	A	4.0
7	B+	3.3
6.5	B	3.0
6	C	2.0
5.5	D	1.0
5	F	0.0
4	F	0.0
3	F	0.0
2	F	0.0
1	F	0.0

These letter grades are weighted according to the number of GPA (Grade Point Average) credits allotted to each course, and converted to a 4.0 scale using the table above.

7.5

Exemptions

The Exam Committee may grant exemptions for courses which have been successfully completed to the appropriate academic level at previous educational institutions. Requests for exemptions must be submitted to Program Management at least one month before the start of the course in question, including the course outline of the relevant course(s) at the student's previous education. Program Management will then ask the Exam Committee for a decision.

Exemptions may be granted on the basis of a comparison between the courses of the BScBA program and the student's previously acquired skills and knowledge. Exemptions will not be included in the calculation of the GPA (if applicable). Students may submit a request for exemption from a course to Program Management via bscba-PM@nyenrode.nl.

The Exam Committee may also decide to grant a partial exemption.

7.6

Registration of study results

Study results are registered such that an interim transcript of the results achieved by each student can be provided to them on request.

Section 4 – ACADEMIC CONDUCT

Introduction

Students at Nyenrode Business Universiteit are expected to maintain the highest standards of academic conduct. Activities that have the effect or intention of interfering with education, pursuit of knowledge, or fair evaluation of a student's performance are prohibited.

Article 8 – Conduct during lectures, attendance, report writing, consultation and collaboration

8.1 *Conduct during lectures*

During a lecture students are not permitted to engage in other activities such as reading the newspaper, communicating via mobile devices, or conversing with fellow students about matters unrelated to the content of the lecture. Cell phones are to be switched off during lectures. Students, during lectures, may only use their laptop or tablet to access course material made available on the Program Portal/Learning Management System with the consent of the lecturer.

Lecturers are authorized to remove any student who does not observe the rules of conduct from a lecture. A lecturer may request Program Management to take measures if, in the opinion of the lecturer, the behavior of a student or students is unacceptable. Such behavior may be regarded as academic misconduct (refer to Article 10).

One of Nyenrode learning objectives is experience-based education, which has its foundations in a mix of sound academic teaching and in-depth class discussions.

To ensure that this learning objective is met, students are expected to attend all scheduled classes and to participate actively in discussions. Attendance/participation can be part of course grading; rules and consequences for missing lectures are stated in the course outline. The course outline should also clearly state in what way attendance and active participation are part of the total grade of a course.

Lecturers are authorized to send out of a lecture any student who does not observe the rules of conduct. A lecturer may request Program Management to take measures if, in the opinion of the lecturer, the behavior of a student or students is unacceptable. Such behavior may be regarded as academic misconduct (refer to Article 10).

8.2 *Absence during mandatory classes*

If a student is unable to attend a mandatory class due to an emergency, he/she should inform the relevant lecturer in advance and otherwise as soon as possible.

If the student is forced to miss too many classes, for example due to prolonged illness or other extenuating circumstances a student who is unable to complete a course may apply to the Program Director to withdraw from the course without penalty.

8.3 *Audio or video recording of lectures*

Students who want to make an audio or video recording of a lecture, should ask beforehand for approval from the attending students and lecturer(s). If a student wants to share the recording with others they must consider the Dutch privacy laws. The consent of all people involved is especially important.

8.4 *General rules for assignments*

Unless stated otherwise, all written assignments have to meet the Nyenrode Guidelines for Thesis Writing. Assignments are always subject to checks using plagiarism detection software.

8.5 *Individual assignments*

Unless stated otherwise, all assignments within the BScBA program are to be completed by the individual student. Discussing individual assignments with other students is allowed, under the condition that the rules of academic conduct are not violated (for examples of academic misconduct see Article 10).

8.6 *Study groups*

Study groups are composed by Program Management or by the lecturer(s) of each specific course. In the event of group assignments, it is the responsibility of each individual student and of the study group as a rule to ensure that all members of the group meet their responsibilities.

If a student fails to meet his/her responsibilities and the study group has reminded the student of his/her failings, the other students in the group have the right to approach the lecturer and Program Management to discuss the situation. The lecturer, in consultation with Program Management, has the right to remove the student who fails to meet their responsibilities from the group. Students themselves do not have the right to exclude a fellow student from their study group.

When a student is removed by the instructor or by PM from the group work, he/she will receive a zero for the assignment. No substitute assignment is possible. Will this lead to a fail of the course, the student will have to redo the course the next year.

8.7 ***Group assignments***

Unless stated otherwise, all group assignments within the BScBA program are to be completed by the group as a whole. Every member of a study group is responsible for the complete final product of the group. Possible academic misconduct (such as plagiarism) is applicable to all the members of the study group.

8.8 ***General conduct during the BScBA program***

Students obstructing personal and/or group development by deliberately and structurally withholding themselves (without prior consent) from key elements of the Program (meant to shape character and developing LES related skills) such as, but not limited to, contributing to student life, living on campus, the sports program and leadership and personal development related courses, will be placed under the rule of academic misconduct. This behavior might ultimately, after an official warning, have the potential to lead to expulsion from the program. Please refer also to the Nyenrode Code of Conduct for students.

Any violation of these rules will be considered as academic misconduct (refer to Article 10).

Article 9 – Conduct during exams

9.1 ***Identity***

Students are required to have a valid ID (passport, ID card or driver's license) with them during the exam and, if asked, are required to show it to the proctor.

9.2 ***Use of aids***

If the use of books, dictionaries, calculators, lecture notes etc. is allowed during an exam, the lecturer concerned will announce this in detail, in advance in the course outline. It is prohibited to add any information to a book or other material, such a written notes, unless the lecturer decides otherwise. Either the lecturer or proctor may inspect books, calculators and other materials before, during, or after any particular exam. The exchange of dictionaries, books or any other reference-materials during an exam is not allowed.

The use of electronic devices during the exam is only permitted when this is announced in the course outline or an official communication on behalf of the course involved.

If an examiner allows the use of formula/information sheets during an exam, these may only be handwritten. Printed or photocopied cheat sheets are not permitted.

9.3 ***Bags, coats etc.***

Bags, wallets, coats, cases, watches, communication and electronic devices (excluding those that are expressly permitted in the Course Outline) should be left in the dressing room or in the lockers of the Exam Room. Students must empty pockets of all personal items, which are then placed in a secured area. Students may be required to empty their pockets upon request of the proctor or lecturer. Students are not allowed to bring food and beverages into the Exam Room.

9.4 ***Starting time of the Exam***

As a rule students must be present five minutes before the start of the exam. Students shall remain quiet entering the exam room and may start the exam immediately. If seating indicators are present, students must act accordingly.

9.5 ***Entering and leaving the exam room***

Students who arrive no later than half an hour after the start of the exam are allowed to participate in the exam. Students arriving after this time are excluded from participating in the exam. No students are permitted to leave the exam until half an hour after the start of the exam. Students arriving late or departing early must not hinder the other students. All materials (including notes and drafts) must be left on the exam table at the end of the exam.

9.6 ***Bathroom use***

During the exam, students are only allowed to visit the bathroom once. Should a student need to go to the bathroom, he/she must have permission from the proctor. Only one student at a time will be allowed to visit the bathroom. Students are not allowed to visit the bathroom during the first and last half an hour of the exam. In case of illness this rule can be adjusted following the illness protocol.

9.7 ***Handwriting and use of language***

Students are obliged to write in a legible fashion. Parts of the written exams that are only partly or not legible will not be assessed. Whether

writing is illegible is determined by the examiner in consultation with another examiner.

Students are obliged to use proper language. Parts of the exam that are not clear because of confusing or incorrect use of language will not be assessed. This is determined by the examiner in consultation with another examiner.

9.8 Proctors

Students are obliged to follow the instructions of the proctors.

9.9 Violation of rules

Any violation of these rules will be considered as academic misconduct. (refer to Article 10).

Article 10 – Academic misconduct

10.1 General

Activities that have the effect or intention of interfering with education, pursuit of knowledge, or fair evaluation of a student’s performance are prohibited. A student who, through deception or negligence, makes it entirely or partly impossible for the examiner to correctly assess a student’s knowledge, insight and skills, is violating the standards of academic conduct. Course assignments will be checked by anti-plagiarism software.

10.2 Measures against violators

Measures to be taken against violators of the standards of academic conduct are at the discretion of the Exam Committee. Possible measures include a warning, a formal reprimand, a deduction of grading points from the final score, or denial of further participation in the test or assignment. In the case of serious and/or repeated academic misconduct, the University Board, after consultation with the Exam Committee, or those acting on its behalf, may take the decision to remove the student from the BScBA-program in question.

10.3 Late discovery of the violation

In cases where the discovery of academic misconduct does not occur until after the test or assignment has taken place, the Exam Committee may still decide to take measures as given in Article 10.2.

10.4 Hearing

Before a decision is made, the student will receive the opportunity to be heard by the Exam Committee.

10.5 **Communication of the decision**

The Exam Committee involved is responsible for informing the student, in writing, of the measures taken.

10.6 **Examples of academic misconduct** include but are not limited to the following definitions:

A. Cheating: using or attempting to use unauthorized assistance, material, or study aids in examinations or other academic work. Example: using a cheat sheet in a quiz or exam, altering a graded exam and resubmitting it for a better grade, etc.

B. Plagiarism:

1. Using the ideas, data, or language of another without specific or proper acknowledgment. Example: copying another person's or the student's earlier own work, such as a paper, an article, or computer work and submitting it for an assignment, cloning someone else's ideas without attribution, failing to use quotation marks where appropriate, etc. To avoid plagiarizing, you must give credit whenever you use:

- Another person's idea, opinion, or theory
- Any facts, statistics, graphs, drawings – any pieces of information – that are not common knowledge
- Quotations of another person's actual spoken or written words
- Paraphrase of another person's spoken or written words

2. Incorrect referencing to one's own work; use for a second time ideas or text in the same wording for different assignments without reference to the earlier work. In these cases a correct reference to one's own ideas and/or texts are required. An incorrect reference is considered to be Academic misconduct.

C. Fabrication: submitting contrived or altered information in any academic exercise. Example: making up data for an experiment, fudging data, citing nonexistent articles, contriving sources, etc.

D. Multiple submission: submitting, without prior permission, any work submitted to fulfill another academic requirement.

E. Misrepresentation of academic records: misrepresenting or tampering with or attempting to tamper with any portion of a student's transcripts or academic record, either before or after coming to Nyenrode Business Universiteit. Example: forging a change of grade slip, tampering with computer records, falsifying academic information on one's resume, etc.

F. Facilitating academic dishonesty: knowingly helping or attempting to help

another violate any standards of academic conduct. Example: working together on a take-home exam, etc.

G. Unfair advantage: attempting to gain unauthorized advantage over fellow students in an academic exercise. Example: gaining or providing unauthorized access to examination materials, obstructing or interfering with another student's efforts in an academic exercise, lying about a need for an extension for an exam or paper, continuing to write even when time is up during an exam, destroying or keeping library materials for one's own use, etc.

H. Deliberately and structurally withholding themselves (without prior consent) from key elements of the Program (meant to shape character and developing LES related skills) such as contributing to student life, living on campus, the sports program and leadership and personal development related courses.

10.7 Social misbehavior

Misbehavior on campus (see also the Nyenrode Code of Conduct) may lead to a penalty being imposed by the University Board. Part of this penalty may be a probation period or even the (temporary) denial of access to the estate and campus.

Section 5 – ASSESSMENTS

Article 11 – Exam regulations

11.1 ***General***

Students are deemed to have successfully completed the components of a study phase or program if they have passed all the components of the program concerned, or have been granted an exemption (refer to Article 7). Regarding the exams to be taken within a study phase or program, the Exam Committee may set conditions involving the minimum number of exams that are to be passed.

11.2 ***Weighting and assessment components***

Each course needs to have sufficient individual work to enable the assessment as to whether the student has individually fulfilled the course requirements. This individual component in general is to be a substantial part of the course grade and preferably at least 50%. Other components, such as team assignments, presentations, and classroom attendance account for the remaining percentage of the whole course grade.

11.3 ***Adjustment of grades***

The Exam Committee, in consultation with the lecturer, reserves the right to adjust grades up to the graduation of the student.

11.4 ***Replacement exams***

The Exam Committee is authorized to set a replacement exam.

11.5 ***Sequence of exams***

The Exam Committee is authorized to lay down rules regarding the sequence of the exams to be taken. In general the defense of the thesis can only be conducted when all other exams have been passed successfully.

11.6 ***Conditions for participation***

As a rule, students can participate in an exam if they have followed the course for the program component concerned. However, for some components, additional requirements may apply regarding participation in the exam. Refer to the relevant course outline for specific exam rules and regulation.

11.7 ***not applicable***

11.8

BScBA Thesis

Rules and regulations pertaining to the BScBA thesis are outlined in the BScBA Thesis Guidelines issued by Program Management.

The student may start the thesis after acquiring 142 ECTS points during the first 10 terms of the program. A student who has two redo courses concerning term 8, is not allowed to start with the thesis in term 12. A student who has obtained less than 30 ECTS in the exchange program (see also article 16.10) is not allowed to start with the thesis in term 12. The student is not allowed to start the thesis with a shortage of ECTS points, unless they have received explicit permission of the Exam Committee.

If a student is unable to meet the final defense deadline, an extension period may be requested through Program Management by email to BScBA-PM@nyenrode.nl

11.9

Retake exams

If a student does not meet the threshold grade for the final exam or his/her whole course, a student will only be offered one opportunity to retake the final exam.

If, following the retake of the final exam, the whole course grade remains insufficient, the course will be considered as a failed course. Absence during both the final exam and the retake will also be considered as a failed course. If the final exam is an assignment (such as papers and reports) a new assignment will be handed out by the instructor, unless stated otherwise in the Course Outline.

Students who qualify for, and participate in, the exchange program (see articles 16.7-16.10) yet fail a course in their 5th or 6th term of the BScBA program have the opportunity to still pass that specific course by taking part in the retake exam period of the following cohort the next year (taking place in January and/or March).

11.10

Overall exams, only applicable in the first year of the BScBA program

If, following the retake of the final exam, the whole course grade in the BScBA first year's program remains insufficient, an examiner will carry out a final investigation into the knowledge and understanding of the student with regard to the course in question, the so-called overall exam. All grades previously obtained for the course in question will be rendered void. The overall exam will cover all course material. Any student passing his/her overall exam will receive an overall course grade of no more than

6.00. This final investigation is only offered to students who have completed all other course components which make up the final grade (group paper, individual paper, cases, etc.).

Students in the first year's BScBA program must have completed the final exam and/or retake before being allowed to participate in the overall exam, unless unique circumstances dictate otherwise. A student is offered an overall exam for a maximum of three courses. In case students redo a course, there is no overall exam offered.

11.11 ***Redo courses***

Students in a redo course will be graded as mentioned in the course outline. It is strongly advised students give their re-do course full priority. However, due to potential conflicting schedules with other classes, it could be that students are not in the opportunity to be present at all lectures of their re-do course. Therefore the active participation grade of the course of the previous year will be automatically recorded (note; this also means that a zero (0) would be transferred to the redo course). Should a student, in comparison to when they participated in the course the first time, outperform on their active participation grade (receive a higher grade) students can file a request with Program Management to replace their active participation grade with the new and higher grade. The student is responsible for filing this request within 15 working days after the publication of the grade. If no request is filed, the active participation grade will remain the same as last year.

11.12 ***Replacement exams for courses no longer part of the curriculum or for redesigned courses***

If a course is removed and not replaced with an alternative course, students are still expected to pass the course involved, as long as the course was part of the program at the time of enrollment. Program Management will ensure, within reason, that students are provided with opportunities for replacement exams.

11.13 ***Voluntary retakes***

Students have the opportunity to retake a final exam to improve their grade. Students are allowed to do this once per course, for a maximum of three different courses in the BScBA program. Students wishing to make use of this opportunity should file an official request by email with Program Management (BScBA-PM@nyenrode.nl) no later than five working days before the scheduled date of the retake. The grade of this voluntary retake will replace the grade obtained in the previous exam, this is also the case if the grade is lower than the previous one.

If the final exam is an individual assignment (such as a paper or report) a new assignment will be handed out by the lecturer at the request of the student, unless stated otherwise in the course outline.

This rule does not apply to the Thesis and to group assignments which are considered a final exam.

11.14 *not applicable*

11.15 *not applicable*

11.16 ***Absence during exams in the first year's BScBA program.***

If a student in the BSc first year's program is unable to participate in a final exam or a retake, there will be no second attempt. If a student is unable to participate in an overall exam, the reason there of must be reported by email (BScBA-PM@nyenrode.nl) to Program Management in advance.

In case of extenuating circumstances (described in the illness protocol) the Exam Committee may decide to allow the student an extra opportunity to take the overall exam. If a student fails to notify Program Management prior to the exam, a request for a second attempt will not be taken into consideration, unless the student can prove that he/she was unable to inform Program Management in time

11.17 ***Absence during exams in the second and/or third year('s) BScBA program.***

If a student in the BScBA second and third year's program is unable to participate in a final exam or a retake exam, the reason thereof must be reported by email (BScBA-PM@nyenrode.nl) to Program Management in advance. In case of extenuating circumstances (described in the illness protocol) the Exam Committee may decide to allow the student an extra opportunity to take the exam.

If a student fails to notify Program Management prior to the exam, a request for an extra opportunity will not be taken into consideration, unless the student can prove that he/she was unable to inform Program Management in time.

The Exam Committee will only consider to offer an extra opportunity to students who have completed all other course components which make up the final grade (group paper, individual paper, cases, etc.). Students

must file a request within 10 working days after the review of the retake exams.

Article 12 – Oral Exams

When an exam is conducted orally, Program Management appoints a second examiner. Only one candidate can be assessed at the same time, unless the Exam Committee decides otherwise. The oral exam can be recorded; if only one examiner is present at the exam, a recording is required. The recording made is stored in accordance with the Dutch privacy and archive laws.

Article 13 – Special Circumstances

13.1 *Special exam facilities*

In exceptional circumstances (for example a physical handicap, a sensory handicap or a chronic illness) the Exam Committee may, following a request by the student concerned, permit a student to take an exam in another appropriate form or manner. Please refer to the Illness Protocol. Students can submit their request to Program Management by email to BScBA-PM@nyenrode.nl. The request needs to be (if possible) accompanied by evidence of the exceptional circumstances

13.2 *Dyslexia*

If a student has dyslexia, extra time may be granted for written tests or exams for the duration of their studies at Nyenrode Business Universiteit. To qualify for this a student must submit an original statement from an officially acknowledged professional based on the criteria formulated by the Stichting Dyslexia Nederland – www.stichtingdyslexianederland.nl. Students with dyslexia will be given additional time for written tests (10 minutes for every hour of the exam).

Students can submit their request to Program Management by email to BScBA-PM@nyenrode.nl.

Article 14 – Publication of results

14.1 In the case of an oral exam (with exception of the thesis defense) the examiner concerned will inform the student of the grade no later than one day after the exam.

14.2 Results of written tests and other components making up the final grade will be published within a period of 15 working days after the exam has taken place or the deadline of the assignments. If assignments are

handed in after the final exams have taken place grades for that component will be published four weeks after the hand in date. Any deviation from the above mentioned periods requires the express consent of Program Management.

Article 15 – Exam reviews

15.1 ***Exam reviews***

Students are allowed to inspect all course components making up the overall grade of a course (cases, midterms, exams, etc.), within a period of six weeks of the publication of the exam results, on the date/time set by Program Management. The student can sign up online for this review moment. An Answer Model will be available during the review. In special circumstances this deadline may be extended or shortened by the Exam Committee. Within certain circumstances an individual review of the exam can be arranged. A request can be submitted by e-mail to Program Management (BScBA-PM@nyenrode.nl).

After the review of the exam a student may file a written request. Questions can be posed in written form to the examiner, objections can be submitted to the Exam Committee within a period of 10 working days after the date of the review. Please refer to Section 7 for the applicable procedures for submitting objections and appeals.

15.2 *not applicable*

Article 16 – Nominal duration, extension of duration, validity of grades and progression rules

16.1 ***Allotted time for study***

For the Bachelor of Science in Business Administration the allotted study time is five years. Successful completion of the program must occur during the allotted time. The Exam Committee is authorized to extend this duration if necessary.

16.2 When the study is not finished within the allotted time a request for an extension of the study time can be submitted to the Exam Committee. When this request is granted an extra tuition fee is required. The details of the fee can be found on the Program Portal/Learning Management System.

When a student has to redo courses after his third year in the BScBA program (also see article 11) and/or is working on the thesis after the

third year of his/her enrollment in the BScBA program, he/she will pay a quarter of the yearly tuition fee (as established for that academic year) per term that it takes to complete the program.

16.3 ***Validity of results in case the study is not finished within the allotted time***

If a student is unable to complete the program within the allotted time, the validity of their results for completed courses will be reviewed. In those cases where it can be demonstrated that previously obtained knowledge is no longer sufficient to fulfill the current learning objectives, the Exam Committee makes a decision regarding any additional assessment requirements.

16.4 *not applicable*

Enrollment in subsequent years (progression rules)

16.5 ***Admittance to the second academic year of the program***

Students must have completed all the courses of the first academic year before they can be admitted, without provision, to the second year of the Program. This means they have obtained the required 60 ECTS points.

Students who have gained 50 ECTS points or more, but fewer than 60 ECTS points, may enroll for the next year of the Program on a provisional basis.

As a condition for this provisional enrollment to the next year, it is the responsibility of the student to, together with program management and/or the senior mentor, prepare a study plan to make up for the deficits. This plan needs to be drafted and approved before the start of the academic year. Only with an approved study plan will the student be allowed to proceed with his/her studies and follow those course(s), and take all related exams and course assignments, in the following year of the BScBA program.

Students who have gained fewer than 50 ECTS points in the first year of the Program will not be allowed to continue the Program.

16.6 ***Admittance to the third academic year of the program***

Students who have been admitted on a provisional basis to the second year of the Program must pass all remaining courses (60 ECTS points) of the first year by the end of term 8 (year 2), additionally to a minimum of 50 ECTS points for the second year courses, in order to be allowed to

continue their study; otherwise they will have to stop with their study.

In order to be allowed to proceed to the next year, it is once again the responsibility of the student to, together with program management and/or the senior mentor, prepare a study plan to make up for the deficits. This plan needs to be drafted and approved before the start of the academic year. Only with an approved study plan will the student be allowed to proceed with his/her studies and follow those course(s), and take all related exams and course assignments, in the following year of the BScBA program.

Exchange period requirements

16.7 *Exchange requirements*

All students are required to participate in the exchange semester during term 9 & 10 of the BScBA program.

In order to be allowed to participate in this exchange studies a student will have to have obtained at least 69 out of the 74 ECTS points at the end of term 5 (the retake results of term 5 are included).

In case of sanctions because of academic misconduct it is up to the Exam Committee if the student is allowed to participate in the exchange.

16.8 *Student ranking list*

To determine the allocation of places at host universities, students will be ranked. The rank will be determined by:

- 1) The number of completed ECTS gained after term 5 (including the results of the retakes of term 5).
- 2) The highest weighted average; based on first year, first sit results

Students with the highest ranks have first choice among the partner universities.

16.9 *The exchange period and individual circumstances*

All students who meet the requirements are required to participate in the exchange program and study at a partner university. However, special individual circumstances could allow a student not to participate in the exchange studies abroad. A request needs to be filed with the Exam Committee. Prior to filing such a request a student should schedule a meeting with Program Management to explore the possibilities and the procedure to be followed. The request should be filed with the Exam Committee before the start of term 7.

Students who do not meet the requirements as stated in article 16.8 and

therefore are not allowed to participate, or students who have permission not to participate in the exchange program will follow the academic program which is offered in term 9 and 10 for incoming students.

16.10 Study load of the exchange period

The student is responsible for completing an exchange program with an equivalent of the BScBA study load of 30 ECTS points. These credits will appear on the transcript as "Exchange semester". No grade will be given for the 30 ECTS of the exchange, solely a pass or fail.

As long as there is no total of 30 ECTS granted, no pass will be awarded for the entire academic component of "Exchange semester".

Students who do not manage to complete 30 ECTS, but have obtained at least 24 ECTS during their time abroad, can make up for a maximum of 6 missing credits in the following manner:

- Do retakes at the partner university, even if this means having to return to that university (at their own cost) at a later stage
- Take on a summer program for a maximum of 6 ECTS credits
- Participate in the academic program at Nyenrode during term 9 and 10 of the next academic year.

Please note that not meeting the minimum requirement of 30 ECTS upon your return will result in students not being able to start their thesis in term 12 and therefore end up with a considerable study delay (see also article 11.8).

Students who gain less than 24 ECTS during their time abroad have to redo their entire exchange semester the next academic year. As a consequence they cannot start with their thesis in term 12 and will have an entire academic year as study delay.

Exemptions to this rule, in case of extenuating circumstances, can be discussed with Program Management and require permission of the Exam Committee.

16.11 Procedures of the exchange period

As soon as the student has officially registered for courses at his/her Host University, he/she has to complete a Learning Agreement (available at Program Management). Program Management will review the course program and if the student's proposal does not meet the BScBA requirement he/she will be required to change one or more course registrations and submit a revised proposal. Without an approved Learning Agreement the Exam Committee cannot award the credit points.

The Exam Committee will award the student who has been on exchange with a pass for the exchange program if (s)he hands in an official grade transcript from the host university stating that (s)he passed the courses as agreed in the Learning Agreement, with a minimum of 30 ECTS.

It is the responsibility of the student to be knowledgeable about, and fulfill timely and accurately, all requirements that are connected to the exchange program (learning agreement, selecting courses, etc. etc.).

Article 17 – Diplomas and statements

17.1 *Diploma and academic transcript*

A diploma is awarded by the Exam Committee as proof that the Program has been successfully completed. The courses which the degree covers, together with their grades, are listed on an academic transcript. In order to receive the diploma and academic transcript the student needs to have fulfilled all his/her financial and other obligations to Nyenrode Business Universiteit.

17.2 *Transcript*

Students who pass one or more of the exams of a program but cannot be awarded a diploma receive (if so desired) a transcript listing the exams that were passed and the grades that were awarded.

17.3 *Cum Laude*

In order to graduate with distinction (cum laude), the student has to meet each of the following criteria:

- 1) pass all courses at the first attempt, achieving a minimum of 7.00 before rounding. If the first attempt resulted in a 7.00 or higher the student is allowed, within the cum laude framework, to attempt to achieve a higher grade (see art. 11.13);
- 2) a final grade for the Thesis of at least 8.00 before rounding;
- 3) a weighted average overall grade of at least 8.00 before rounding in all courses of the program. Results that are not expressed in numbers are not taken into account when calculating the weighted average.

If a student has been found guilty of academic misconduct the possibility to graduate cum laude is no longer applicable. The Exam Committee is notified of all cum laude judicia.

17.4 *Graduation*

Degrees will be granted on Graduation Day, or, when applicable, on the date that the student passed their last exam. If the student has not met

all of the requirements by this date the degree will be granted as soon as these have been met.

Section 6 – STUDENT COUNSELLING DURING THE STUDY

Article 18 – Student counseling and progress

Program Management deals with the counseling of individual students and acts as, or appoints study coaches to this end. It is the responsibility of the student to make the study coach/Program Management aware – in good time – of any circumstances that could lead to a study delay or other study-related problems.

Section 7 – OBJECTIONS AND APPEALS (duplicated from the General Statute)

Article 19 – General

19.1 A student can lodge an objection concerning decisions taken by the Exam Committee, the Complaints Desk or on decisions of behalf of Nyenrode (for example by the University Board or the Program Director) with the committee or person, that took the decision. (see art. 20 and 21).

A student can lodge an appeal concerning decisions taken by the Exam Committee, the Complaints Desk or on decisions of behalf of Nyenrode (for example by the University Board or the Program Director) with the Appeal Committee, after an objection to the original decision has been rejected. (see art. 22)

Article 20 – Lodging an objection with the Exam Committee

20.1 In order to object to a decision concerning academic testing (assessments) it is possible to register a written objection with the Exam Committee within 15 working days following the publication of the assessment result. The Exam Committee will act on the objection within 15 working days.

20.2 In order to complain against a decision made by the Exam Committee, it is possible to register a written objection with the Exam Committee within 15 working days following the announcement of the Committee's decision.

20.3 Objections must include:

- a) name, address (this includes postal code, city, country) of the appellant;
- b) name of the body or the official responsible for the decision against which the objection is lodged;
- c) a clear description of the decision or, as the case may be, of the treatment against which the objection is directed. A copy of the

decision in question should, if possible, also be submitted. If the objection concerns a refusal to comply with a decision, a clear description must be given of the decision that should have been taken in the eyes of the appellant;

d) the grounds on which the objection is based.

20.4 All documents pertaining to the objection should be addressed to the coordinator of the relevant Exam Committee.

20.5 The Exam Committee will act on the objection within 15 working days.

20.6 To appeal against a decision made by the Exam Committee, a written appeal can be filed with the Appeal Committee.

20.7 The participant can (at his/her own risk) continue with the educational program while the objection is under consideration.

Article 21 – Lodging an objection with the Complaints Desk

21.1 In order to complain against a decision concerning other issues than academic testing (assessments), it is possible to register a written objection with the Complaints Desk within 15 working days following the decision. The Complaints Desk will act on the objection within 15 working days.

21.2 The objection must include:

- a) name, address (this includes postal code, city, country) of the appellant;
- b) name of the body or the official responsible for the decision against which the objection is lodged;
- c) a clear description of the decision or, as the case may be, of the treatment against which the objection is directed. A copy of the decision in question should, if possible, also be submitted. If the objection concerns a refusal to comply with a decision, a clear description must be given of the decision that should have been taken in the eyes of the appellant;
- d) the grounds on which the objection is based.

21.3 All documents pertaining to the objection should be addressed to the Complaints Desk.

21.4 The Complaints Desk will act on the objection within 15 working days.

21.5 To appeal against the outcome of the Complaints Desk procedure, a written appeal can be filed with the Appeal Committee.

21.6 The participant can (at his/her own risk) continue with the educational program while the objection is under consideration.

Article 22 – Lodging an appeal with the Appeal Committee

22.1 To appeal against a decision made by the Exam Committee or by Nyenrode

and its representatives, or to the outcome of a Complaints Desk procedure, a written appeal can be filed with the Appeal Committee within 15 working days following the announcement of the decision against which the appeal is being made.

- 22.2** The appeal will, in all cases, be lodged in the form of a written statement outlining the reasons, within 15 working days following the announcement of the decision against which the appeal is being made. If this time-period is exceeded as a consequence of circumstances beyond the control of the person involved, the Appeal Committee will disregard those grounds for a non-admissible declaration.
- 22.3** The appeal must include:
- a) name, address (this includes postal code, city, country) of the appellant;
 - b) name of the body or the official responsible for the decision against which the appeal is lodged;
 - c) a clear description of the decision or, as the case may be, of the treatment against which the appeal is directed. A copy of the decision in question should, if possible, also be submitted. If the appeal concerns a refusal to comply with a decision, a clear description must be given of the decision that should have been taken in the eyes of the appellant;
 - d) the grounds on which the appeal is based.
- 22.4** All documents pertaining to the appeal should be addressed to the secretary of the Appeal Committee, and have Nyenrode's address as the place of residence (AppealCommittee@Nyenrode.nl).
- 22.5** The fee set for the lodging of an appeal is € 100. If the Appeal Committee decides in favor of the appellant, this fee will be refunded.
- 22.6** The chairperson of the Appeal Committee will inform the appellant of possible deficiencies in the appellant's case and will invite him/her to rectify or resolve these within a period of time determined by the chair. Where the appellant fails to do so, the appeal can be declared non-admissible on these grounds.
- 22.7** The Appeal Committee will act on the appeal within 12 weeks. The chairman of the Appeal Committee can make a provisional ruling should problems arise because of this time frame.
- 22.8** The participant can (at his/her own risk) continue with the educational program while the appeal is under consideration.

Section 8 – FINAL CONDITIONS AND PROVISIONS

Article 23 – Final conditions

- 23.1** If required the University Board will determine amendments to the rules

and regulations after consultation with Program Management and, when concerning assessment issues, with the relevant Exam Committee.

- 23.2** Changes affecting enrolled students can only be implemented if it can be reasonably assumed that the students' interests will not be harmed by said changes.
- 23.3** A copy of these regulations, together with any amendments made by the relevant Exam Committee or Program Management, is available to all students and can be obtained from the Program Administration.

Article 24 - Unforeseen circumstances

- 24.1** In all cases concerning assessment matters not covered by these rules and regulations the Exam Committee, in consultation with the Associate Dean Degree Programs and the Program Director, has the authority to make a final decision.
In all cases concerning educational matters not covered by these rules and regulations the Associate Dean Degree Programs, where applicable in consultation with the relevant Exam Committee, has the authority to make a final decision.

Article 25 – Hardship Clause

- 25.1** In any circumstance where the Decision making Authority (such as the Exam Committee or the University Board) has the conviction that it would not be suitable to execute a decision (or a proposed decision) it can decide otherwise. Please note, that this is a possibility that the Decision making Authority has, but it can in no way be obliged to do so. The Decision making Authority may apply additional conditions to the new or adjusted decision. Whatever the latter decision is, it has to fit in with the spirit of the original decision (or proposed decision) and creating precedents should be avoided.

Article 26 –Validity

These Rules and Regulations are valid for all cohorts of the BScBA program during the academic year 2018-2019 starting 22 August 2018.

In this form determined by the University Board of Universiteit Nyenrode B.V. at: 8th of August, 2018.

Mitigating circumstances, Illness and pre-existing conditions protocol.

April 2018

- 1. Cases in which students can invoke the illness protocol**
 - a. A request for an additional exam opportunity when a new exam opportunity is not offered in a reasonable time frame or if the exam is offered less than two times a year.
Please note that in case of exceedance of allotted study time (when applicable) the illness protocol cannot be invoked, but the usual procedure for objection is to be followed;
 - b. A request for postponement of dead lines
 - c. Establish that mitigating circumstances exist, that might influence study progress and/or require additional arrangements

- 2. 'Fit to sit' policy and mitigating circumstances**
 - a. The University operates a 'fit to sit' policy, which means that if you submit a piece of coursework or sit an exam and/or in-class test etc. you have deemed yourself fit to do so. It is your responsibility to determine if you are fit to participate in assessment or if a mitigating circumstances claim should be submitted. You cannot submit a mitigating circumstances claim for poor performance in assessment(s).
 - b. Where a student is unfit to make reasonable judgement on their ability to undertake assessment, due to mental illness or other exceptional circumstances, or is taken ill during an examination, a mitigating circumstances claim may be submitted where this can be supported by original medical evidence.
 - c. Mitigating Circumstances are serious unforeseen, unpreventable circumstances that significantly disrupt student performance in assessment. As a student, you are expected to plan your work so you can meet assessment deadlines at the same time as other obligations you may have both inside and outside the University. The mitigating circumstances process should only be used if you experience significant disruption to your studies due to circumstances that were unforeseen and out of your control.
 - d. A mitigating circumstances claim should be submitted if valid detrimental circumstances result in:
 - a) the late or non-submission of coursework; or
 - b) non-participation in assessment and/or non-attendance of examination(s);
 - e. There are four absolute conditions for a mitigating circumstances claim to be taken into consideration by the Exam Committee, and failure to meet

one or more of these will mean your claim is rejected. Your original, independent documentary evidence must be submitted as soon as possible and demonstrate that the circumstances:

1. were unforeseen
2. were out of your control and could not have been prevented
3. relate directly to the timing of the assessment
4. meet the relevant specific conditions relating to documentary evidence (see articles 2b and 4 below) It is the student's responsibility to ensure that their application meets all of the absolute conditions above.

- f. The confidential nature of information provided by students in support of an application for consideration of mitigating circumstances will be respected by the University in compliance with data protection law. Confidential information will only be shared with the relevant individuals within the University on a 'need to know' basis, all of whom are required to keep applications securely to avoid unauthorized access or other breaches of information security. All claims and evidence will be kept by the University for the duration of time as stated in the University's Records Retention Policy after which the evidence shall be destroyed.
- g. In all cases, claims must be substantiated by original independent documentary evidence. This must be an official document e.g. a letter signed on official headed paper, and must include the dates during which the circumstances applied. A digitized version of an original is acceptable. Documentary evidence must be presented in Dutch or in English and, where required, translations must be provided using an authorized translator. Copies of documentary evidence, other than officially certified copies of death certificates, will not be accepted. The University reserves the right to check the authenticity of all documentation submitted as part of a mitigating circumstances claim. Please note: Any student who submits documentation that is not authentic will be investigated in accordance with the Academic Misconduct regulations.
- h. A student may seek a supporting statement from their Personal Tutor (or other suitably qualified member of University staff), in order to help them to articulate their claim, if that individual is aware of the circumstances and their effects, although this cannot, in itself, constitute independent documentary evidence.

3. Illness

A student claiming that illness will interfere or has interfered with his/her study and/or exam results is obliged to notify Program Management and the Exam Committee about this as soon as possible. A doctor's statement, or

documentation that provides equivalent information, needs to be submitted to the Exam Committee.

- a. A doctor's statement should:
 - i. Contain a written statement in words (so for instance not the results of a blood test) signed by a general practitioner (huisarts) or medical specialist;
 - ii. describe the medical condition (i.e., name of the disease, condition or disability);
 - iii. state the period during which the medical situation applies;
 - iv. provide a link between the medical situation and the disability to study and/or participate in an exam. (see also article 4 below)
- b. The Exam Committee can decide that other ways of establishing the illness are acceptable if the circumstances indicate this.
- c. If illness prevents a student of attending the exam he/she should notify Program Management as soon as possible. Request to the Exam Committee for another exam opportunity will only be taken into consideration if proof is submitted that Program Management was notified in a timely fashion.
- d. If illness occurs at the start of or during an exam the student is obliged to notify the proctor/invigilator at once. The proctor/invigilator will make a note of this and afterwards will inform Program Management and the Exam Committee of the situation. Please note that due to the 'fit-to-sit' policy (article 1a above) this situation is only applicable to very sudden, drastic circumstances preventing the student to finish his/her exam .
- e. The student who wants to claim that he/she was ill at the start of or during an exam must send a request to the Exam Committee as soon as possible (i.e., at the first possible opportunity; and, extraordinary circumstances excepted, not later than a week after the occurrence of the situation) and ask the Exam Committee to evaluate the circumstances and decide upon the actions to be taken. If the student has specific requests, these should be stated as well.
- f. The Exam Committee will, as a rule, not consider cases:
 - i. In which the student has not notified the proctor/invigilator before the start of or during the exam about the interfering illness.
 - ii. in which the student claims that illness has interfered with their exam results, when this claim is made after the exam is finished and has been submitted by the student.
 - iii. in which the student claims that illness has interfered with their

exam results when this claim is made after the publication of the results of the exam concerned.

- g. The Exam Committee will notify the student and Program Management about its decisions as soon as possible, but not later than 15 working days after receiving the student's claim that illness has interfered with his/her ability to study or to make an exam, as stated in article 33 of the General Statute/NNBS procedure guide.

4. Pre-existing conditions, such as chronic illness

- a. The University is sympathetic to students with pre-existing conditions, such as chronic illnesses (i.e. conditions already existing at enrollment in the program). However, students must determine for themselves whether they can comply with the requirements of their chosen program. The integrity of the University's academic awards is established through the validation of the assessment requirements for the program and these cannot be varied to suit the circumstances of individual students.
- b. Within the scope of this protocol a pre-existing condition is either an illness that is a more or less a lifelong condition (such as Diabetes Mellitus) or a condition which takes a long time to recover from (such as most forms of the illness of Pfeiffer).
- c. Students with pre-existing conditions (such as chronic illness) are required (strongly advised) to notify both Program Management and the Exam Committee concerning their condition in a timely fashion (Of course, in adherence to the prevalent Dutch and European privacy laws, all personal information is handled as confidential):
 - If a student already suffers from a pre-existing condition at the start of the program he/she is required to inform Program Management and Exam Committee at enrolment. A doctor's statement (or equivalent documentation) concerning the illness needs to be submitted by the student.
 - If a student is of the opinion that his/her pre-existing condition will not interfere with his/her ability to follow and successfully complete the program, the student is strongly advised to notify both Program Management and the Exam Committee of the existing condition beforehand, in case that things prove to be otherwise.
 - If a student develops a chronic illness or comparable condition while enrolled in the program he/she is required to notify Program Management and the Exam Committee as soon as the

illness has been established. A doctor's statement (or equivalent documentation) concerning the illness needs to be submitted by the student.

The Exam Committee has the possibility to decide beforehand on specific conditions for the student concerning assignments and exams. The Exam Committee notifies the student and Program Management about its decision(s); Program Management is responsible for implementing the conditions specified. Please note that suffering from a pre-existing condition *as a rule* does not automatically lead to adjustments in exam conditions for the student involved.

- d. If the pre-existing condition interferes directly with the exam performance (for instance a black out due to diabetic conditions) the Exam Committee will take into consideration to give the student involved an extra opportunity for the exam, provided the following conditions are met:
 - a. The student has indicated in a timely fashion that he/she suffers from a pre-existing condition (see art. 3c above)
 - b. The student has indicated during the exam to the proctor/invigilator that his/her pre-existing condition is causing problems. The student then preferably should stop working on the exam and leave the room.
- e. If a student claims that a pre-existing condition has interfered with his/her exam results, but the student did not notify Program Management and Exam Committee in a timely fashion about the pre-existing condition (see art. 3c above), the Exam Committee will review the case as it would do in cases of non-pre-existing condition (see art. 2a-g above).

5. Independent documentary evidence

- a. Medical conditions
 - o Circumstances relating to illness or injury must be independently verified by the person, practice or institution that diagnosed or assessed the illness/injury at the time it occurred. Statements that a student reported that they were ill, or which do not include a clear diagnosis, will not be accepted.
 - o In the case of evidence relating to medical conditions, this must take the form of a medical certificate or doctor's letter that is either obtained at the time of the illness or evidence that makes it clear that the student was unwell at the time. The evidence must state the time and duration of the illness and include a clear medical opinion
 - o A note from the doctor indicating that the student told them they were unwell will not normally be accepted; and

- Self-certification cannot be accepted;
 - Counsellors and Psychiatrists with a recognized professional qualification may be asked to provide a confidential statement.
 - Medical conditions which prevent attendance must be supported by written evidence from a Medical Practitioner.
 - Written evidence from Complementary Therapists will only be considered where the University is satisfied that the therapist is a member of a recognized professional body.
 - Pregnancy. Whilst pregnancy itself is not considered to be a mitigating circumstance, there may be circumstances where pregnancy-related issues (e.g. medical conditions associated with the pregnancy) impact on a student's studies/assessment. In these cases, the student must use the mitigating circumstances procedure to report them to the university (and provide appropriate supporting evidence, which can be submitted in confidence, if necessary).
- b. Bereavement
- Where the mitigating circumstances relate to the death of someone related to or known to the student, the University normally requires an (digitized) authentic funeral card (i.e. not a copy) to be presented in a timely fashion. If there is any doubt a death certificate or an officially certified copy of a death certificate, or equivalent official document needs to be provided.
 - Where a student has been affected by a death of someone other than a partner, parent, child or close family member, the University requires the student to explain the relationship to the deceased and the impact upon their studies.
 - Bereavement will normally be considered to cover assessments from the moment the student has been notified of the death up to and including the week in which the funeral has taken place. If a student feels they have been affected by a death beyond this period they will need to provide additional evidence to indicate how the death has significantly disrupted their performance in assessment e.g. a doctor's certificate.
